

Neighbourhood Plan

We now need to restart our work and plan the next stages.

Report back to all the parishioners, not just those who replied or attended our open day, with a summary of each topic. This will be put on the parish website with photographs, on the parish notice board and in the Ide Times.

Therefore, could you please summarise the issues under your topic/s, keeping it brief, to 150 words for each topic. You can use some of the text from your displays, and I will return them plus all the original statements and post-it notes. The 7 topics and an introduction, this should fill a double page in the Ide Times, the November issue- deadline 20th Oct.

I will be reporting back to Teignbridge with our summaries as well as photographs of the displays and some I took during the day.

We next need to focus on the crux of the NP which is primarily about planning and development over the next 20 years. We need to decide how we go about this, how much help we might need, its format and other examples will guide us in this aspect.

The next meeting, not likely to be too long, will be used to collate our summaries and plan the future progress. Busy people that we are, I've decided to structure times to make it easier for us to find suitable dates and times.
