1. Apologies:

2. Declarations of interest:

3. To approve the minutes of 10 June 2021

4. Planning Matters

4.1 New Applications

21/01203/FUL Land at NGR 28921 90738 Ide Village Road Use of Land for storage of inert building materials

4.2 Current Applications

21/01133/HOU 7 Station Road, Ide – Two Storey extension including a single garage to the front. The committee voted unanimously to support this application, noting that it does not fall within the conservation area, or cause any detrimental visual impact, as the house is set back from the road. It is in keeping with the house next door which already has a similar extension. It will not impact on to the highway. They supported the recommendation to install bat boxes as a precautionary mitigation measure.

21/01179/NPA Combe's Head, Whiddon Farm Application for prior approval under part 3 Class Q (a) and (b) and paragraph W of the GDPO change of use of agricultural building into a dwelling

21/01180/NPA Combe's Head, Whiddon Farm Application for prior approval under Part 3 Class Q (a) and (b) and paragraph W of the GDPO change of use of agricultural building into a dwelling.

The committee felt that both proposed conversions from agricultural buildings into dwellings were sympathetic to their surroundings and welcomed the preservation of the original masonry and the Dutch barn elements, which recognises the heritage aspects of the site. The chair will ask if an ecological and/or biodiversity consultation might be in order, when submitting the committee's comments to Teignbridge District Council. It was noted that the access to both dwellings is by a

modest vehicle-width track and, ask that this and the entry point from Idestone Lane would remain low-key and in keeping with the surroundings. The committee voted unanimously to support this application.

21/00560/HOU 2 Fore Street, Ide, Retention of a bridge, and a replacement front wall/fence and gate. Members of the committee have no objection to bridge linking the two areas of land which lie within the curtilage of the property, provided that the Environment Agency do not have any issue regarding any possible increased flood risk or adverse impact upon biodiversity that might result from the bridge's continued existence.

However, the committee voted unanimously to object to the wall and fence that has been erected. In discussion, there was complete agreement with the comments made by the Local Planning Authority's Conservation Officer.
